

Loops

(condition)

```
{  
  //  
}
```

(condition)

```
{
```

// body of the loop

```
}
```

```
int i = 1;
```

```
( i <= 100 )
```

```
{
```

```
  System.out.println("Hello World");
```

update \rightarrow

```
i++;
```

```
}
```

infinite loop
true loop

Types of loops

1) Entry controlled \rightarrow while loop, for loop

2) Exit controlled \rightarrow do-while loop.
